Win the most cards!

How to Play

- If you're reading this, you're in charge!
- Shuffle the cards, then deal seven to each of you, face down.
- To start, secretly choose a card from your hand and ask, "Ready?"
- When the other player says "Yes!" you count, "One, two, three!" On three, you both put down your chosen card, face up between you both.
- It's easy to see who wins: Rock beats Scissors, Scissors beats Paper and Paper beats Rock!
- Whoever wins takes the two cards and starts their own 'win' pile. They then ask, "Ready?" and play continues...
- If you both lay the same picture, it's a draw. Play the classic 'Rock, Paper, Scissors' by hand to determine who gets the hand.

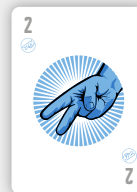

Keep playing until you use all your cards. Whoever takes the most cards wins. Play the best out of three or five rounds.
